## Executive Summary

Significance of monetary framework in a nation is expanding step by step. It is very unimaginable for any nation to create in mechanical and business area without sound monetary framework in current financial time.

Unfamiliar trade activity is one of the critical elements of monetary associations. It assumes an essential part in generally speaking economy of the nation. Monetary organizations gather data from various sources identifying with cost and income from unfamiliar trade activity. Through fare, import, and unfamiliar settlements Foreign Exchange department of the banks procures their profit. Banks is the go-between of all fare, import, and settlement exercises.

Globalization of public economies has given a lift to worldwide exchange. The dealer and the purchaser in a worldwide exchanging exchange must concur for an item or its quality, cost and so forth go into a sales contract, illuminating correctly transportation and conveyance subtleties, terms of installment, required documentation and other related issues including debate settlement strategy and legitimate structure accessible.

The effect on exchange exchanges cash approaches of the bringing in and trading nations and dangers related with them, extortion prospects in the exchange or in reports are additionally important. A nation can't long keep on having a shortage on unfamiliar current record however a good equilibrium of installments on current record may hide a weighty unfriendly offset of installments with one individual nation or gathering of nations.

Unfamiliar Exchange Market permits monetary forms to be traded to encourage global exchange and monetary exchanges. Subsequent to passing a ton of stages, present unfamiliar trade market has set up and performing to profit all the gatherings consolidated here. There are essentially three parts in the unfamiliar trade market of Bangladesh. Those are the Bangladesh Bank, approved vendors, and clients. This paper examined with respect to the connected issues of unfamiliar trade exercises of the organization.

# CHAPTER 01: Introduction

## 1.1 Introduction

Monetary foundations are speculation mediators connecting the savers and clients of asset. These go-betweens are mediated between a definitive borrowers and moneylenders allowing them proficient exchange of assets. People having excess assets can loan them for sensible re-visitation of business visionaries who need assets to exploit monetarily and monetarily suitable venture openings. The presence of monetary organizations encourages such trade of assets. Subsequently, both the borrowers and banks are in an ideal situation than they would have been without monetary organizations and market mediators. Consequently, these monetary organizations, for example, non-banking monetary establishments, have a positive part in financing and venture which is a multidimensional cycle including the intricacy of many interrelated and related elements of enhanced nature.

The way to fruitful financing lays in the capacity of equilibrium numerous exercises at the same time. The organization must keep up a sound development rate, while simultaneously it must make a move to limit the dangers it faces. The organization should likewise keep up enough money available to meet commitments. These are identified with sound execution of an organization. The monetary presentation assessment exhibits the qualities and shortcomings of organization execution after some time. The investigation will take a gander at the measure of liquidity that FX Unity has accessible to fulfill any sensible needs that may need to meet, how it oversees resource/obligation, Foreign trade Operation, what is the situation regarding benefit and how the organization deals with its capital so it has adequate assets to stay dissolvable. This investigation is an endeavor to the inside and out examination of the Forex exchanging exercises of FX Unity Global LTD.

## 1.2 History

In 1976, Bangladesh embraced a system of oversaw drift, which proceeded up to August 1979, when a money weighted bin technique for conversion scale was presented. # Chapter 02 Project Description & Intern Experience

## 2.1 Origin of the report

Presently a days, schooling isn't simply restricted to books and study halls. In this day and age, training is the apparatus to comprehend this present reality and apply information for the improvement of the general public just as business. From schooling the hypothetical information is acquired from courses of study, which is just the most of the way of the topic. Down to earth information has no other option. The ideal coordination among hypothesis and practice is of principal significance with regards to the advanced business world to determine the polarity between these two regions. In this manner, an opportunity is offered by United International University (UIU) for its potential business graduates to get three months handy experience, which is referred to is as "Entry level position Program". For the opposition of this temporary job program, the creator of the investigation was put in a non-banking monetary organization specifically, "Fx Unity Global LTD". Entry level position Program carries an understudy nearer to the genuine circumstance and in this way assists with dispatching a profession with some related knowledge.

This paper is titled "Forex trading activities of a financial services company: A study on FX Unity Global LTD" originated from the fulfillment of the BBA program. For the internship program, each student is attached with an organization. My internship was at FX Unity Global LTD, Gulshan, Dhaka. During my internship, I had to prepare a report under the supervision of Dr. Siyama Sultana madam.

## 2.2 Objectives of the study

- To know about foreign exchange activities.
- To identify the problems faced by FX Unity Global Ltd in performing foreign exchange activities
- To apply theoretical knowledge in the practical field.
- To know how they maintain foreign exchange transaction.
- To analyses the customer satisfaction of service quality of FX Unity Global Ltd.
- Use of practical knowledge in sales department after getting training.
- Overall to get a clear idea and practical knowledge about Foreign exchange activities of FX Unity Global Ltd.

## 2.3 Methodology

Research Methodology is a way to systematically solve the study problem. This study is qualitative and descriptive in type.

### **Collection of Primary Data:**

Many of the data and information were collected from my practical experience and queries from the executives while doing my internship at FX Unity Global LTD. Information and data regarding Overview of the FXU, interest rates & charges, Foreign Exchange operations, Foreign Exchange policies etc. were collected from these sources.

### **Collection of Secondary Data:**

Data regarding the Foreign Exchange operations and Performance Evaluation of FX Unity Global LTD were collected from secondary sources like: Annual Reports, Brochures, Manuals and Publication of FX Unity Global LTD, Bangladesh Bank Library, DSE Library, Newspaper etc. were the major sources of secondary date.

## 2.4 Limitations of the study

This study may not be free from limitations. It is to be noted that, these limitations would be contributed in developing an outstanding report. Below these limitations are:

- Constraint of time is one of the main factors that abbreviated the current examination. Because of time impediment, numerous viewpoints couldn't be examined in the current investigation.
- Confidentiality of data is another important barrier during the conduct of this study. Every organization has their own secrecy that is not revealed to others.
- Though I am one of their staff, while collecting data on FX Unity Global Ltd, personnel do not disclose enough information for the sake of confidentiality of the organization.
- One of the major sources of collecting information is the Organization's web site. But the web site is not up-to-date comprising with any other non-banking financial services companies.
- Little working region makes obstruction to execute any work appropriately. Trouble in getting to most recent information of inside tasks. Non-availability of some preceding and latest data.
- I was in this department for only 3 months of time and worked like a regular employee hindered the opportunity to put the better effort for the study.

## 2.5 Working Experience at FX Unity Global LTD

FX Unity Global LTD is a non-banking financial company established, which obtained incorporated as a Private Limited Company under the Companies Act, 1994 in Bangladesh on July 31, 2019. FX Unity Global LTD is one of the leading non- banking financial company. Being able to work in this organization I find myself lucky. I got the opportunity to work in sales departments in FX Unity Global LTD

During the three months of my internship I was placed in Gulshan office (South East Asian HQ) under Biswajit Ghosh, senior sales executive in FX Unity Global LTD. It was fun to do the project. The work experience gave me a good idea of the overall financial system of Bangladesh and taught me the professionalism at work place.

## 2.6 Job as an Intern

During the internship period at FX Unity Global LTD, I was placed as sales consultant. At first, I was in training program for four weeks, then in sales department for two months. So, it was a great experience for me to work in FX Unity Global LTD.

**Meeting with new people:** as an employee of sales department I had to meet with new people every day. There was a target set by team leader to meet new people. The strategy is to find people who are potential client and known with financial

System. In the training period I had training how to meet with ne people, socialize with them on different circumstance.

**Sharing information:** the primary job is to introduce the potential client with our company's product and service. As an employee of financial company there are some code of conduct we had to follow such as, we can't provide wrong or misinformation about any policy or service. These rules are to help us in future financial conduct.

**Membership:** it was our goal to get the potential client become our member of the seminar.

**Seal A Deal:** "Seal A Deal" is a traditional activity of the company. There might be chance to convert the potential client into regular general client. In this occasion, I had to draw a contract on the behalf of the company with the client to become of investor. This event counts as personal achievement as well as team achievement.

In short, my job as an intern:

- Find a potential client
- Communicate with the desired client and set an appointment
- Sharing detailed information about company's product and service
- Try to convince him/her to become our member for seminars.
- Try to convince him/her to become investor
- If the person agreed to become an investor, draw a contract.
- Make the deposit on behalf of my client, "Seal A Deal".

## 2.7 Critical observation and recommendation

As an advertising understudy, I generally like to manage a responsibility in a business division. In this way, clearly private associations get the primary goal to me. A temporary position in FXU is an incredible method to exhibit revenue in the area and for me to get familiar with the genuine employment I would do on a normal premise.

During entry level position period, representatives of FXU were extremely strong and consistently assisted me with learning. Be that as it may, it was unrealistic for me to think pretty much all the divisions inside 3 months.

I discovered a few issues with respect to the organization while working here.

During my entry level position I saw that outstanding task at hand in deals division was more than contrasted with the quantity of working representatives. As their work pressure was being multiplied, so persuasive degrees of those representatives were getting down. In this way, the authority is needed to be a little cautious about their representatives. May be their present strategy isn't to enroll any new representative, however they can comprehend this circumstance by moving workers from different offices. In any case the inspiration level of the representative will be low.

The board doesn't have any severe principles with respect to time the executives. Subsequently, the propensity of being not on time is developing among workers. To change this training the board may should be a little unforgiving about their guidelines and guideline.

## Chapter 03 Foreign Exchange Operation

### 3.1 Foreign exchange

Unfamiliar trade covers all business exercises identifying with import, send out, internal and outward settlement and purchasing and selling of cash. Perhaps the biggest business did by the non-banking monetary organization and banks is unfamiliar exchanging. The exchange among different nations succumbs to close connection between the gatherings managing in exchange. The circumstance calls for mastery in the field of unfamiliar activities. The organization, which gives such activity, is alluded to as vital accomplice. Chiefly exchanges with abroad nations are regards of import; trade and unfamiliar settlement go under the review of unfamiliar trade exchanges. Global exchange requests a progression of merchandise from vender to purchaser and of installment from purchaser to dealer. For this situation the business houses assume an indispensable part to connect between the purchaser and dealer.

In FX Unity Global LTD unfamiliar trade division has one section which is forex exchange.

### 3.2 Sales department

Mainly selling deals with clients that is two parties in sales department in FX Unity Global LTD:

1. **Sales Executives and Consultants:** this party mainly does the heavy work. They find potential clients, talk with them, sharing information about company's product and service, make them general clients, keep updating them about new offers or policy, draw and make contracts etc.

2. **Upper Management:** they do most sensitive work for the company. After closing a deal, they have to update the clients account and invest. They monitor company's whole volume, profit and expenses. They also decide and organize various events and seminars.

### 3.3 Activities related to forex trading

There are two types of service FXU providing:

1. Forex education consultancy and training
  2. Fund management program
- 
1. **Forex education consultancy and training:** FX Unity Global LTD has course program for its clients. The course takes 6 months to 12 months of duration to complete. The classes are taken every Wednesday, Friday and Saturday at 5 pm. In this session a professional trader instructs how to do forex trade in first hand.
  2. **Fund management program:** Fund Management program is for all. FXU takes peoples fund and manage it to do trading. Investor will get up to 10% profit per month for 10-month contract. An investor can deposit minimum 200\$ to maximum 10000\$ against one NID. The profit is disbursed in 3 slot every month. There is no capital locking system. If anyone withdraw their deposit before 10 month there will 10% penalty charge and 5% processing fee. Processing fee is applicable for anytime withdrawal. The company will take BDT 89.50 per dollar and give BDT 84.50 per dollar.

### **3.4 Strategic partner**

Midtou Global is a government registered, heavily regulated and authorized brokerage house in Indonesia. Midtou Global Ltd started its journey in 2005. They one of top 5 brokerage house in Indonesia. FXU is the strategic partner of Midtou global ltd. Midtou Global Ltd has highly professional and experienced trader. They have extensive knowledge about global macroeconomics. They minimize the loss through risk management. FXU is working as an introducing partner in Bangladesh.

### **3.5 Activities in sales department**

As an intern in sales department I have to take 4 weeks of training initially. In training session, I know about the company profile, financial market, forex market and selling training.

After the training program my tasks were:

1. Create a client database
2. Contact with clients and introduce the company
3. Follow up with clients and take appointment
4. Offer the service and promotions
5. Achieving sales target

### 3.6 Performance of FX Unity Global LTD

Performance of FX Unity Global LTD can be determined by its income, expense, profit/loss, cash inflow and outflow.

<b>Statistics</b>			
	<b>All trades</b>	<b>Long trades</b>	<b>Short trades</b>

## 3.7 Findings of the Study

In the middle of twenty first century, here we are facing a heavy competition with each other, at every single point. If anyone has a weak point than the rival party will take the opportunity and make a problem for the weak intuition.

After complete my internship in FX Unity Global LTD I realized that there are many problems and this may be a cause of huge loss or create a barrier for the future prospect. So, the company should take care of it very seriously.

### **Findings of the study**

The principle target of FX Unity Global LTD is to expand benefit by using its assets at the ideal level and to guarantee the most ideal assistance towards the clients. FX Unity Global LTD consistently attempts to maintain its social responsibility, so it fixes the terms and conditions for getting store under Forex exchanging exercises a most adaptable mold and uncover the real financing cost it charges against the credit to be advertised.

### **Other Findings**

In a non-industrial nation like Bangladesh the requirement for homegrown asset assembly is of exceptional significance. Store held by the monetary mediators establishes the significant piece of homegrown monetary assets of the nation. Different exercises of the organization are additionally reliant upon the stores. The higher the measure of stores, the better is the position organization in financing venture ventures, particularly enormous scope ventures. The size of store shows that FXU's development in store is remarkable throughout the years demonstrating a development pace of 67.47%.

# Chapter 04 Recommendations and Conclusions

## 4.1 Recommendations

In my limited capacity to focus temporary job program, I have picked up viable encounters about forex exchanging exercises from beginning an arrangement to readiness of month to month report about it. I had found not many things from everyday tasks. Considering that I make following proposals:

Deals Section must be decentralized to settle on their choices with greater obligation. Customary execution examination and confirmation of advancement/prize ought to rely upon that they will oppose the representative's exchanging propensity. Programming up degree is a need to upgrade execution and to rival other PCBs. Space lack is another issue for unfamiliar trade division since they needed to store all the papers of any exchange.

Yearly monetary report must be distributed distinctly for unfamiliar trade exercises in subtleties.

FX Unity Global LTD can open new branches in spots.

## 4.2 Conclusion

Monetary organizations assume a significant part during the time spent financial development of a nation. Given their extensive financial potential, these establishments have a far – arriving at sway on the turn of events and government assistance cycle of the encompassing social orders. These monetary organizations depend, in gathering their monetary assets, fundamentally on the inflow of stores. To endure and make progress, these organization's undertaking to draw in customers looking for store to back their various exercises as per the organization's set up terms and conditions.

These organizations, which are called non-banking monetary organizations, depend in their exchanges on the financing cost, as the driving variable, which animates every one

of their dealings.

In an agricultural nation like Bangladesh, monetary business is a lot of serious. In excess of 10 organizations are working as of now and contending to hold greatest piece of the overall industry. For a smoothen activity each bank must have the ability of overseeing resource/risk, liquidity and credit.

The monetary presentation assessment exhibits that the benefit of the bank has a positive pattern. Benefit is a pointer of an organization's ability to convey hazard and/or to expand its capital. The pay proclamation, a vital wellspring of data on an organization's productivity, just as the examination uncovers that fx unity global ltd has achieved huge measure of benefit throughout the long term. With a set number of workers network it has recorded positive development in net benefit on account of appropriate administration and right determination of venture standards. The organization has solid center store connoting sound liquidity position and keeping up an ideal situation ahead of time store proportion. Generally monetary picture of fx unity global ltd for the most recent year time frame shows that it has emphatically set its root in the monetary field of Bangladesh. The figures don't recount the tale of disappointment. The pattern is agreeable to FX Unity Global LTD and the administration should step up and stay with the's way to the achievement.
